

## Quality Policy

„NOBO Automotive Systems Czech Republic s.r.o. company is committed to deliver best quality products, services, and technology in accordance with customer requirements, applicable legal and regulatory requirements and the IATF 16949 standard.”

The commitment is based on these foundations:

- Continuous improvement of all processes and teamwork.
- Focus on customer satisfaction and identification of the needs.
- Zero defect strategy.
- Understanding and identifying all interested parties' needs such as for example employees, customers, shareholders and suppliers.
- Effective management of resources and processes.
